

Photo 7: Looking north from south of the approximate location of the planned Doak Boulevard extension that is south of the project site. The project site is shown as the vegetated field, and the Nulaid Foods Inc. buildings are shown to the left of photo center.

Photo 8: Looking east from south of the project site and the planned Doak Boulevard extension. Near the center of the photo is the Fox River Paper Company facility and Ripon Cogeneration Inc. plant. These facilities are located approximately 0.25 mile east of the project site. Plumes are shown being emitted from both the paper company building and the cogeneration plant shown in the photo.
